Drill motors

DME32MW | DME32UW

Core drilling up to Ø 350 mm

New, compact, robust and ergonomic design

Various drill rig attachments:
Module Drill™ or universal plate

Performance and service indicator, levelling aid and drilling mode selection

The DME32 drill motor in the 3.2 kW power class combines excellent drilling performance with a compact design. The mechanical and electronic overload cut-out and the full metal housing guarantee high reliability. The built-in performance and service indicator and levelling aid also make it easy to control

the control panel. The 3-speed transmission together with additional speed control (on-drill and iron mode) ensure optimum drilling speed. The DME32 drill motor is available with the Modul Drill™ quick clamping system or universal plate drill rig attachments.
